

# Poster Presentations 5<sup>th</sup> Floor - Room 562 - KOCH

## P1

### **Surveillance of severe influenza cases in France, 2009-2018: strengths, limits and perspectives**

Sibylle Bernard-Stoecklin,

## P2

### **Characterizing healthcare-seeking behavior of the general population with influenza-related symptoms in Hong Kong**

Qiqi Zhang

## P3

### **Assessing severity of seasonal influenza using proportions of hospitalisations, Denmark 2010-2018**

Ida Glode Helmuth

## P4

### **Global seasonal influenza mortality estimates: a comparison of three different approaches.**

Vanessa Cozza

## P5

### **How much did influenza contribute to the very high excess all cause mortality observed in the 2017/18 season?**

Jim McMenamin – (presenter Arlene Reynolds)

## P6

### **Pandemic Influenza Severity Assessment (PISA)**

Aspen Hammond

## P7

### **Contribution of influenza to all-cause mortality in Scotland**

Arlene Reynolds

## P8

### **Acute respiratory infections in secondary care versus influenza-like illness in primary care in the Netherlands: hospital incidence peaks first**

Sierk Marbus

## P9

### **Screening of Neuraminidase Inhibitor Resistance Markers among Avian Influenza Viruses N3-N9 subtypes**

Min-Suk Song

## P10

### **Rapid and simple colorimetric detection of multiple influenza viruses infecting humans using a Reverse Transcriptional Loop-mediated Isothermal Amplification (RT-LAMP) diagnostic platform**

Su Jeong Ahn, Yun Hee Baek (presenter)

## P11

### **C-reactive protein as a biomarker of severe H1N1 influenza**

Alaa Badawi

**P12**

**The epidemiological and etiological characteristic of influenza and ARVI in the Russian Federation in recent years**

Nikolay Briko

**P13**

**Estimated type and subtype-specific benefits of influenza vaccination during the 2017-2018 influenza season in the United States**

Melissa Rolfes

**P14**

**Influenza Monitoring and Forecasting Using Participatory Web-based Data**

Daniela Perrotta

**P15**

**Understanding respiratory syncytial virus disease burden and mortality to inform future vaccination strategies**

Arlene Reynolds

**P16**

**Measuring the impact of influenza vaccination programmes among the elderly population in Spain, the Netherlands and Portugal, 2015 – 2018**

Clara Mazagatos

**P17**

**Hospitalisation of adult influenza patients costs the Dutch healthcare system annually 28 million euros**

Sierk Marbus

**P18**

**Predictors and Outcomes of Hospitalization for Influenza among High Risk Patients: Real World Evidence from the United States Medicare Population**

Susan Bolge, Roman Fleischhackl (presenter)

**P19**

**Interim results from a large, European, multi-centre study of community-acquired acute respiratory infections**

Louise Sigfrid

**P20**

**Influenza pandemic preparedness in South Africa (SA) in context of the International Health Regulations (IHR) - Joint External Evaluation (JEE)**

Wayne Ramkrishna
